**Independent auditor's review report on quarterly unaudited
financial results of Chamundeshwari Electricity Supply
Corporation Limited (CIN - U40109KA2004SGC035177)
For the quarter ended September 30, 2023**

To,

The Board of Directors

Chamundeshwari Electricity Supply Corporation Limited

Report on the Financial Statements:

We have reviewed the accompanying statement of unaudited financial results of **M/s Chamundeshwari Electricity Supply Corporation Limited**, for the quarter ended September 30, 2023 (from July 01, 2023 to September 30, 2023 (the statement attached herewith, being submitted by the company).

Managements' responsibility:

The company's management is responsible for the preparation of financial statements in accordance with the recognition of and measurement principles laid down in the accounting standards (AS) 25 Interim Financial Reporting, prescribed u/s 133 of the Companies Act, 2013, as amended from time to time, read with relevant rules issued thereunder and other accounting principles generally accepted in India.

Further, management is responsible for completeness and accuracy of the underlying data and complete disclosure of all material and relevant information to the preparation and presentation of financial statements, selecting & applying appropriate accounting policies, maintaining adequate accounting & other records, implementing effective & efficient internal controls, preventing & detecting frauds or other irregularities, establishing controls to safeguard the assets & interests of the company, ensure the preparation & presentation of financial statements in accordance with all the applicable laws, regulations and the orders, stipulations of the State and Central Government.

The annexed financial statements have been approved by the Director Finance on 15-Nov-2023 for the quarter July 2023 – September 2023.

Auditors' Responsibility:

Our responsibility is to make an independent review of the financial statements and report the same based on the results of our review. We conducted our review in accordance with Standard on Review Engagements (SRE) 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by the Institute of Chartered Accountants of India.

A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Basis for Qualified Conclusion

1. As per the compliance norms of IND AS 1, an entity shall make an explicit and unreserved statement of compliance in its notes and shall not describe the financial statements as complying with IND AS, unless they comply with all the applicable IND AS. We noticed that the company has not specifically disclosed wherever non-complied IND AS in its notes to accounts.
2. The company has been carrying certain inventories since 31-Mar-2016 at the standard rates, which were applied then and the other inventories procured after 01-Apr-2016 at the weighted average cost method.
3. Revenue is accounted on accrual basis except for unbilled revenue which will be accounted at the year end. The company recognizes the grant and subsidies from the Government in respect of capital assets as well as the penalties & damages from the contractors & vendors on receipt basis, which is contrary to the accrual system of accounting.

Qualified Conclusion:

Based on our review conducted as stated above, except to the effects/ possible effects of matter described in the basis for qualified conclusion above, nothing has come to our attention that causes us to believe that the accompanying statement for the period 1st July 2023 till quarter ended 30th September 2023, prepared in accordance with the aforesaid Indian Accounting Standards and other accounting principles generally accepted in India, has not disclosed the information required to be disclosed in terms of Department of Public Enterprises Guidelines issued by the Ministry of Power for state DISCOMS Dated March 11, 2021 including the manner in which it is to be disclosed, or that it Contains any material misstatement.

CHAMUNDESHWARI ELECTRICITY SUPPLY CORPORATION LIMITED

(CIN NO. - U40109KA2004SGC035177)

Registered Office, #29, Vijayanagara, 2nd stage, Hinkal, Mysuru, Karnataka - 570 017

Notes to the Financial Statements

I. Corporate Information:

Chamundeshwari Electricity Supply Corporation Ltd ('CESC' or 'the company') is a premier power distribution Company in the State of Karnataka and wholly owned undertaking of Government of Karnataka. The Company is engaged in distribution of Power in five revenue districts of Karnataka, viz. Mysuru, Mandya, Chamarajanagar, Kodagu and Hassan. The Company is registered under the provisions of the Companies Act, 1956. The Company is a distribution licensee under Section 14 of the Electricity Act, 2003. It is domiciled and incorporated in India having its registered office at #29, Vijayanagara, 2nd stage, Hinkal, Mysuru, Karnataka - 570 017.

Earlier, the power sector in the State of Karnataka was serviced by Karnataka Electricity Board. In the year 1999, the State Government initiated the reforms process of the power sector to meet the needs of the burgeoning economy. As a first step, in 1999, the Karnataka Electricity Board was bifurcated into two companies, viz. Karnataka Power Transmission Corporation Limited (KPTCL) and Vishweswaraiah Vidyut Nigama Limited (VVNL). The Karnataka Electricity Regulatory Commission (KERC) was also setup in 1999. In the subsequent stage of reforms, the transmission and distribution activities carried out by KPTCL were unbundled and four power distribution companies were formed in June, 2002.

CESC was carved out from Mangalore Electricity Supply Company Limited ("MESCOM") in April 2005 to manage distribution functions.

II. Significant Accounting Policies

1 Statement of compliance:

In accordance with the notification dated 16th February 2015, issued by the Ministry of Corporate Affairs, the Company has adopted Indian Accounting Standards (referred to as "Ind AS") notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended) with effect from 1st April 2018.

The date of transition to Ind AS is April 1, 2017 and the financials are drawn as per IND AS from FY2018-19 onwards.

Previous period figures in the financial statements have been restated in compliance with Ind AS.

Upto the year ended 31st March 2018, the Company had prepared its financial statements under the historical cost convention on accrual basis in accordance with the Generally Accepted Accounting Principles ("Previous GAAP") applicable in India, the applicable accounting standards as prescribed under the provisions of the Companies Act, 2013 read with the Companies (Accounts) Rules, 2014 and the provisions of the Electricity Act, 2003 to the extent applicable.

In accordance with Ind AS 101-"First Time adoption of Indian accounting Standards", the Company has presented a reconciliation of shareholders' equity under Previous GAAP and Ind AS as at March 31, 2018 and April 1, 2017 and reconciliation of the Profit/(Loss) after tax as per Previous GAAP and Total Comprehensive Income under Ind AS for the year ended March 31, 2018.

2 Basis of Preparation of Financial Statements:

The financial statements are prepared on accrual basis of accounting under historical cost convention except as otherwise provided in the policy and in accordance with Indian Accounting Standard (Ind- AS) as notified by Ministry of Corporate Affairs under the Companies (Indian Accounting Standards) Rules, 2015 and subsequent amendments thereof as well as with the requirements applicable to financial statements as set forth in the Companies Act, 2013 and the provisions of the Electricity Act, 2003 to the extent applicable.

All items having a material bearing on the financial statements are recognized on accrual basis except the following:

- Grants and subsidies from Government in respect of capital assets, which are accounted on actual receipt basis; and
- Penalties & Damages recoveries from contractors and vendors are recognized as Income as and when recovered.

2.1 Use of Estimates and judgements:

The preparation of the financial statements requires management to make judgments, estimates and assumptions that affect the reported amount of assets, liabilities, revenue and expenses during the reporting period. Although such estimates and assumptions are made on reasonable and prudent basis taking into account all available information, actual results could differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis and revisions to accounting estimates are recognized prospectively.

Key source of judgments, assumptions and estimation uncertainty in the preparation of the financial statements which may cause a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are in respect of useful lives of property, plant and equipment, employee benefit obligations, provision for income tax, Regulatory Deferral Account balance and measurement of deferred tax.

2.2 Property Plant & Equipment ("PPE"):

- Property, Plant and Equipment are stated at cost, net of accumulated depreciation and impairment loss, if any. Such cost comprises purchase price, non-refundable taxes and duties, borrowing costs on qualifying assets and any cost directly attributable to bring the asset into location and condition necessary for it to be capable of operating in the manner intended by the management. It does not include any estimate of the cost of dismantling and removing the item and restoring the site on which it is located. Freehold land is not depreciated.
- The company depreciates property, plant & equipment using straight line method and depreciation is charged at the rate approved in KERC Tariff Order 2009 dated 25th November 2009. The company does not charge depreciation as per the rates prescribed under the Schedule II of the Companies Act, 2013. Depreciation on additions of assets is provided on pro-rata basis from the month immediately in which the assets become available for use. In case there is a revision in the rates prescribed and notified by the KERC, the company applies the revised rates prospectively from the date of change notified by the KERC. The residual value of all the assets is taken at 10% as per KERC guidelines as against 5% as per Companies Act 2013.
- An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in profit or loss.
- The Company has the practice of capitalizing the Assets after the receipt of Final Bill from the Contractor and are accepted / approved / certified by the competent authority. The borrowing costs attributable to the such acquisition/construction of qualifying assets are capitalized as part of cost of such assets up to the date when such assets are ready for its intended use.
- In respect of Assets shared with KPTCL, the ownership and title vests with KPTCL and as such, they are not reflected in the books of accounts of the Corporation. But the share of maintenance expenditure in respect of such assets is charged to Profit & Loss account and the accounts system was not enabled to monitor the same.
- Fixed Assets other than those classified as 'Furniture & Fixture' and 'Office Equipment' costing individually up to ₹500 are written off to Profit and Loss Account during the year.

- g. Advance paid towards the acquisition of property, plant & equipment outstanding at each Balance sheet date is classified as capital advance under Other Non-current Assets. Subsequent costs on renovation and modernization of those assets resulting in increased life and/ or efficiency of an existing asset is added to the cost of related assets or recognized as a separate asset as appropriate when it is probable that future economic benefits will flow to the company.

- h. In accordance with Ind AS101, the Company has availed the exemption where in the carrying valued of the PPE as per previous GAAP has been treated as the deemed cost on the date of transition to Ind AS.

2.3 Depreciation:

- a. Depreciation on all assets (except lease hold land and Assets created out of Consumer Contribution and Grants) is provided on straight line method at the rates as prescribed by KERC from time to time.
- b. Plant and machinery costing Rs.500/- or less individually is depreciated at 100% in the year in which they are installed and put to use, in accordance with para 2.37 of Annexure-III of ESAAR, 1985.
- c. Depreciation is charged from the first year of operation. In case of assets capitalized during the year, depreciation is charged on pro-rata basis
- d. The rates of Depreciation as per KERC regulations are not in conformity with the rates prescribed in Schedule II of the Act.
- e. **Depreciation rates used as follows:**

Asset	Depreciation Rate
Buildings	3.34%
Hydraulic Works	5.28%
Other Civil Works	3.34%
Plant & Equipment	5.28%
Lines, Cable Networks	5.28%
Vehicles	9.50%
Furniture & Fixtures	6.33%
Office Equipment	6.33%
Computers	15.00%

2.4 Intangible Assets:

- a. Intangible assets are recorded at the consideration paid for acquisition of such assets. Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortization and accumulated impairment losses. Amortization is recognized on a straight-line basis over their estimated useful lives i.e. period of agreement or license term and in the absence of license (Software) the cost is amortized in 3 years period. The estimated useful life and amortization method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses, if any.
- b. An intangible asset is derecognized on disposal or when no future economic benefits are expected from its use or disposal. Gain or loss arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss when the asset is derecognized.
- c. Intangible Assets under development represent amount paid towards development of software intended for future use and will be capitalized on receipt of completion/commissioning. These are valued at cost.

- d. In accordance with Ind AS101, the Company has availed the exemption where in the carrying value of the intangible assets as per previous GAAP has been treated as the deemed cost on the date of transition to Ind AS.

2.5 Non-current Assets (or disposal groups) held for Sale:

Non-current assets (or disposal groups) are classified as assets held for sale when their carrying amounts are to be recovered principally through a sale transaction and the sale is considered highly probable. The sale is considered highly probable only when the asset or disposal group is available for immediate sale in its present condition, it is unlikely that the sale will be withdrawn and sale is expected within one year from the date of the classification. Non-current assets (or disposal groups) classified as held for sale are stated at lower of carrying amount and fair value less costs to sell. Property, plant and equipment and intangible assets are not depreciated or amortized once classified as held for sale. Assets and liabilities classified as held for sale are presented separately in the statement of financial position.

2.6 Capital work in progress:

Materials issued to Capital Works are valued at weighted average rate applicable to the closing stock before such issue. Contracts are capitalized on receipt of final completion report or technical commissioning reports.

2.7 Inventories:

- a. Inventories are valued at lower of cost determined on weighted average basis and net realizable value wherever applicable. Net Realizable value is the estimated selling price less estimated costs necessary to make sale.
- b. Raw Materials ,Consumables and stores are valued at Weighted Average method based on Purchase Cost (inclusive of taxes)
- c. Material issues are valued at Weighted Average Rate.

2.8 Revenue Recognition:

- a. Revenue from sale of energy is accounted on accrual basis at the tariff rates approved by the Karnataka Electricity Regulatory Commission (KERC).
- b. Revenue from contracts with customers is recognized on supply of electricity or when services are rendered to the customers at an amount that reflects the consideration to which the company is entitled under appropriate regulatory framework.
- c. The Tariff / Rural Electrification Subsidy released by Government of Karnataka is recognized as part of Revenue in accordance of the Government of Karnataka order No EN 48 PSR 2006 Bangalore Dated 13th June 2007.

The Tariff subsidy is claimed from the Government as per the Commission Determined Tariff (As per the prevailing tariff order) on the consumption of BJ/KJ up to 40 units per installations per month and IP Set Category up to and inclusive of 10 HP.

2.9 Other Income :

- a. In respect of amount recovered from Contractors/Suppliers towards delay in execution of works/supplies, the amount is recognized as income upon rejection of the delay condonation request of the contractor/supplier, by the competent authority. Until such time the same is accounted under current liabilities. In the absence of any such request, the amount so recovered would be treated as penalty and credited to miscellaneous revenue.
- b. Interest income is recognized on a time proportionate basis taking into account the amount outstanding and the rate applicable.
- c. Interest income arising from financial assets is accounted for using effective interest method.

2.10 Regulatory asset / liability:

- a. The Company is engaged in operation of Supply of Electricity to the consumers covered under its jurisdiction. The rates are regulated by the Hon'ble Karnataka Electricity Regulatory Commission (KERC). As per section 62 of Electricity Act 2003, the CESC is filing tariff application yearly with Regulatory Commission for determination of tariff. The Regulatory Commission determines the tariff as per procedures laid in section 64 of Electricity Act 2003. The Company collects tariff from consumers as approved in the tariff order issued by the Regulatory Commission. The Hon'ble KERC through its Tariff orders allow recovery of deficits in subsequent periods through true up orders.
- b. Expenses / income recognized as Regulatory Income/Expenses in the statement of Profit & Loss to the extent recoverable or payable in subsequent periods based on the Company's understanding of the provision of the applicable regulations framed by the Karnataka Electricity Regulatory Commission and/or their pronouncements/orders, with corresponding balances shown in the Balance sheet as Regulatory Deferral Account balances.

2.11 Borrowing Cost:

- a. Borrowing costs consist of interest and other costs that the Company incurs in connection with the borrowing of funds. Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of cost of the respective assets. All other borrowing costs are expensed in the period in which they occur.
- b. Borrowing costs are capitalized by effective interest rate after adjustment of transaction costs, premiums / discounts, to be made while capitalizing borrowing costs.

2.12 Taxes on Income

Income tax expense represents the sum of the tax currently payable and deferred tax.

a Current tax:

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

b Deferred tax:

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the Financial Statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax liabilities are generally recognized for all taxable temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized. Deferred Tax Asset is recognized to the extent that it is probable that future taxable profits will be available against which the deductible temporary differences, unused tax credits (Minimum Alternate Tax) and unused tax losses can be utilized. The carrying amount is reviewed as at end of each reporting period and are reduced to the extent that it is no longer probable that the related tax benefit will be realised. No Deferred Tax Asset/Liability is created for temporary timing differences when the income is exempt from tax if the timing difference is expected to be set off within the tax holiday/exempt period.

Current and deferred tax are recognized in statement of profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity respectively.

2.13 Segment Reporting:

- a The Company is engaged in the activity of distribution of electricity.
- b The Chief Operating Decision Maker ("CODM") of the Company after Considering the Geographical Area of Operations, Economic and political conditions affecting the operations of the company there is no identifiable reporting segment. Hence no Segment wise report is furnished.

2.14 Employee Benefits:

Short-term employee benefits:

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognized during the year when the employees render the service. These benefits include performance incentive and compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related service.

The cost of short-term compensated absences is accounted as under:

- in case of accumulated compensated absences, when employees render the services that increase their entitlement of future compensated absences; and
- in case of non-accumulating compensated absences, when the absences occur.

Long-term employee benefits:

Long term employee benefits comprising of earned leave scheme and family benefit fund are recognized based on the present value of defined benefit obligation and computed using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period and same is recognized in Profit and Loss statement.

Post employment benefits:

Defined contribution plans

Employee benefit under defined contribution plans comprising of pension fund and gratuity fund for employees enrolled on or after 01.04.2006 are recognized based on the amount of obligation of the Company to contribute to the plan (which is 10% of the Basic Pay + Dearness Pay + Dearness Allowance with matching contribution of employees up to 31.3.2019. However, w.e.f 1.4.2019 the employer Contribution has been enhanced to 14%). The same is paid to KENDCPS cell (KPTCL / ESCOMs New defined contribution pension scheme cell) and expensed during the year through Profit & Loss Statement.

In respect of employees who have joined CESC before 1.4.2006, provision for contribution to KPTCL/ESCOMs Pension & Gratuity Trust is made on the formula evolved by the Trust based on the actuarial valuation undertaken by KPTCL / ESCOMs' Pension & Gratuity Trust. Any revision in contribution rates due to actuarial valuation by the Trust is accounted in the year of intimation by the Trust to the company.

As the company contribution is collected and administered by the trust and contribution paid on a pay as you go basis, the same has been treated as a Defined Contribution Plan in accordance with Ind AS 19.

2.15 Statement Of Cash Flows

Cash flows are reported using indirect method, whereby profit/(loss) before tax is adjusted for the effect of transactions of non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows are segregated into operating, investing and financing activities.

2.16 Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. The Company recognizes a financial asset or a financial liability only when it becomes party to the contractual provisions of the instrument.

Non Derivative Financial Instruments are classified as:-

Financial assets measured at:

- Amortized Cost
- Fair Value through profit & loss
- Fair Value through other comprehensive income

Financial liabilities measured at:

- Amortized Cost
- Fair Value through profit & loss

Initial Recognition and Measurement:

The Company determines the classification of its financial assets and liabilities at initial recognition. All financial assets and liabilities are initially recognized at fair value plus/minus directly attributable transaction costs except for those financial instruments measured at fair value through profit & loss. Financial assets and liabilities carried at fair value through profit & loss are initially recognized at fair value and transaction costs are expensed in the income statement. For trade receivables, at initial recognition, an entity shall measure trade receivables at their transaction price.

Subsequent measurement:

The subsequent measurement of financial assets depends on their classification as follows:

- **Financial assets/ Financial liabilities carried at amortized cost**

Financial assets or financial liabilities are subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

- **Financial assets at fair value through other comprehensive income**

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

- **Financial assets / Financial liabilities at fair value through profit or loss**

A financial asset or financial liability which is not classified in any of the above categories is subsequently fair valued through profit & loss.

De-recognition:

- **Financial Assets**

The Company derecognizes a financial asset only when the contractual rights to the cash flows from the asset expires or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset.

- **Financial Liabilities**

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a de-recognition of the original liability and recognition of a new liability and the difference in the respective carrying amounts is recognized in the income statement.

Offsetting of Financial Instruments

Financial asset and financial liability are offset and the net amount is presented in the balance sheet when and only when the Company currently has a legally enforceable right to set off the recognized amounts and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously

2.17 Leases:

The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or The Company recognizes a right-of-use asset and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and leases for low value underlying assets. For these short-term and leases for low value underlying assets, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term.

Right-of use assets and lease liabilities include these options when it is reasonably certain that the option to extend the lease will be exercised/option to terminate the lease will not be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation/amortization and impairment losses and adjusted for any reassessment of lease liabilities.

Right-of-use assets are depreciated/amortized from the commencement date to the end of the useful life of the underlying asset, if the lease transfers ownership of the underlying asset by the end of lease term or if the cost of right-of-use assets reflects that the purchase option will be exercised. Otherwise, Right-of-use assets are depreciated/amortized from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

Right-of-use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. In calculating the present value, lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rate. Lease liabilities are re-measured with a corresponding adjustment to the related right-of-use asset if the Company changes its assessment whether it will exercise an extension or a termination option.

2.18 Earnings Per Share:

The earnings considered in ascertaining the Company's Earnings per Share ('EPS') comprise the net profit after tax attributable to equity shareholders. The number of shares used in computing basic EPS is the weighted average number of shares outstanding during the year. The weighted average number of equity shares outstanding during the year is adjusted for events of bonus issue; bonus element in a rights issue to existing shareholders; share split; and reverse share split (consolidation of shares).

The diluted EPS is calculated on the same basis as basic EPS, after adjusting for the effects of potential dilutive equity shares including adjustments for Share Application Money.

2.19 Prior Period Income / Expenses

Material prior period errors are corrected retrospectively by restating the comparative amounts for the prior periods presented in which the error occurred. If the error occurred before the earliest period presented, the opening balances of assets, liabilities and equity for the earliest period presented, are restated.

Materiality aspect will be followed as per the Internal policy approved by the Board.

2.20 Power Purchase:

The Power Purchase cost is recognized based on the Government of Karnataka Order No. EN 131 PSR 2003 Dated 10th May 2005 for accounting the cost of power based on the billings made by Power Generators Pool allocated to CHAMUNDESHWARI ELECTRICITY SUPPLY CORPORATION LIMITED, MYSORE by the Government of Karnataka. The variation between power allocation by Government of Karnataka ("GoK") and the actual power is being reconciled through energy balancing which is carried out every year and adjustments to the power purchase cost at KERC approved rate is accounted every year based on such reconciliation.

The KERC in its Tariff Order determines the transmission charges based on the installed generation capacity of the state.

2.21 Government Grants:

Grants / subsidies received from the government or other authorities towards capital expenditure as well as consumers' contribution to capital works are treated initially under deferred income and are included in non-current liabilities and taken to income based on the depreciation on straight-line basis that is charged to the class of asset for which such Grants/subsidies are received and presented within other income.

Other revenue grants are credited to profit and loss account

2.22 Dividend:

Dividend paid / payable are recognized in the year in which the related dividends are approved by the shareholders or Board of Directors as appropriate.
