Sub: Enhancement for Purchase of matching line materials on Labour Contract Works by awarded Firms/LEC from 10% to up to 20% -reg.

Ref: 92nd CESC Board of Directors meeting held on 19.02.2022.

PREAMBLE:

As per the GoK directions, BESCO is the Nodal Agency and Managing Director, BESCO is the Chairman for preparation of Common Schedule of Rates applicable to all ESCOMs.

In the preface of Common Schedule of Rates, the description for purchase of Small Items for works on Labour Contract basis where ever the matching materials are not available in the store is mentioned as below;

Purchase of Small Items: The LEC's carrying out works on labour contract basis is authorized to purchase small items other than poles. Conductors, Transformers, Lighting Arrestors, H.T. Insulators, Meters and GOS at SR Rates wherever the execution of the work is held up due to non-availability of such materials, provided the cost of such purchase is limited to 10% of the total estimate cost and after the specific approval of the Executive Engineer by the way of an Official Memorandum.

The Licensed Electrical Contractor who have awarded works on Labour Contract are represented corporate office to hike the existing limit of 10% purchase cost of matching materials, as the executed works are crossing limit of 10% due to present hike in market rates and there is no proper provision to approve the works which are crossing 10% of the estimate cost.

In this background, field officers are experiencing difficulties in categorization of the works and all LECs are pressurising the corporate office to clear their LC bills which are pending due to exceeding limit of 10% of the purchase cost of the matching materials.

In view of the above, an agenda to enhance the total cost of purchase limit from 10% to up to 25% wherever matching materials which are not available in the respective stores was placed

Board agreed to enhance the total cost of purchasing limit to 20% of total estimated cost.

Hence the following orders;

Order

The total cost of purchase limit is enhanced from 10% to 20% of total estimated cost for purchase of matching line materials on Labour Contract Works till revision of Schedule of Rates 2018-19. After the revision of common Schedule of Rates, the existing clause limit of 10% will be retained as it is.
