Subject: Invitation to participate in Metering India 2022 Seminar, 3rd and 4th November 2022, at Hotel Taj Palace, New Delhi, India

IEEMA is pleased to announce Metering India 2022 – 9th International Seminar on “Resilient Utilities & Empowered Consumers”. The Seminar is being supported by Ministry of Power, Ministry of Housing & Urban Affairs, NSGM, CEA, IEC and PFC Ltd.

IEEMA Meter Division organises Metering India Seminar an interactive and thought provoking bi-yearly event, enjoying widespread popularity amongst the stakeholders of the Metering Industry. The last edition of the Metering India Seminar was attended by more than 500+ delegates from 180+ organizations with over 20+ Technical papers presented.

On behalf of IEEMA Meter Division and the Seminar Committee, it is our pleasure to invite you as a **Special Invitee** for attending the Seminar and request a line of confirmation at your earliest convenience.

Our call for papers had received an excellent response, and 24 best papers are selected for final presentation. Some of the organisation who has contributed their papers are CEA, REC Ltd., PFC, TPDDL, Tata Power Co. Ltd., Mumbai, AEML, MSETCL, PWC, E&Y, GUVNL, JDVNL, CESC, ZERYCON GmbH, CDAC, Cuculus GmbH, OPTCL APDCL, PVVNL, SECURE, GENUS, Schneider Electric.

Further, to encourage greater participation from Utilities, Govt. and PSUs we have kept a **subsidised delegate fee of Rs. 7500/- per delegates (as against Rs 15,000/- per delegate for others)**. We request you to kindly nominate maximum number of engineers from your organisation to participate in the Seminar to share their knowledge, experience and derive maximum benefits by interacting with speakers and experts. Registrations of delegates can be online using the link:

<https://meteringindia.ieema.org/vfair/register/delegate>

A copy of detailed “Call for Delegates” brochure is enclosed for your necessary use. For further information, please feel free to contact the organizing secretary at uttam.kumar@ieema.org; +91-9717518502 or Dr. Saad Faruqui; +91-9897031934

We look forward to your confirmation and also receiving nominations from your organisation for Metering India 2022.

Yours sincerely,

Amit Kumar

9th Edition

METERING INDIA

2022 ● ● ●

Resilient Utilities & Empowered Consumers

November 3rd - 4th, 2022
Hotel Taj Palace, New Delhi

CALL FOR DELEGATES

A
318
org

www.meteringindia.ieema.org

JEEMA Meter division modestly announces the 9th edition of METERING INDIA seminar, the largest market event of the Indian Energy Metering Industry. METERING INDIA, powered by JEEMA, is a biennial event characterized by collaboration with various stakeholders in the electrical ecosystem. Over a decade in the past, this event has not only offered a platform to express diverse perspectives but also served to help power sector utilities addressing the challenges and issues associated with the absorption of new technologies.

Since 2004, more than 2700 delegates representing various diversified fraternity of power sector have participated in METERING INDIA Seminars. The last edition was attended by over 500 participants representing more than 170 organizations comprising Utilities, Consultants, Franchisees, Institutions, Testing Labs, System Integrators, Regulators, Solution providers and Manufacturers.

Metering India 2022

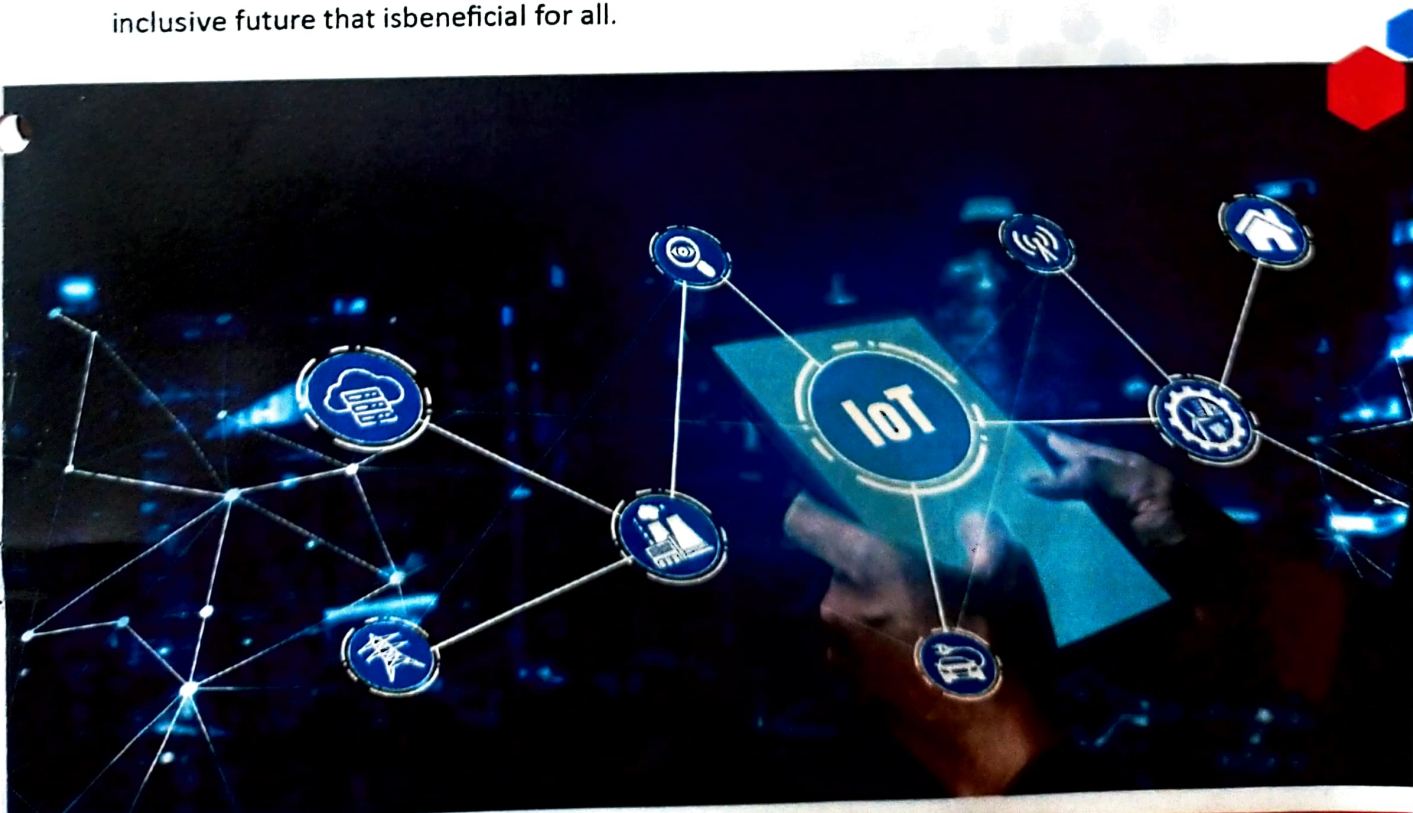

Resilient Utilities and Empowered Consumers

Metering is no longer limited to the conventional application of billing alone. It also provides useful information for Analytics, Pricing Mechanisms, Demand Response, Load Curtailment, Revenue Protection, Demand Forecast, Energy Management and way forward for Smart Cities. Services like installation, billing, analytics, improvement in billing efficiency, renewable integration and management, etc. have all become a part of the wide horizon of Metering Solutions. Further, Metering is now converging with Smart Grids and Smart Cities.

As the theme of the Metering India 2022 suggests, we welcome utility officials, global thought processes, experience, case studies, technology developments etc. to make Indian utilities resilient through the deployment of smart technology, smart business processes, analytics, stakeholder involvement awareness, and empowering the consumers etc.

This seminar offers a platform for technologies in metering, renewable integration, energy efficiency enhancement, last mile connectivity, demand side management, smart devices and information technology to showcase their latest trends contributing towards sustainability. The seminar also aims at voicing the opinions on global best practices in contract management, envisaging programs as value delivery tools by breaking the silos, gaps in standards and regulations and expectations from various stakeholders.

The metering industry in India has matured since its inception more than five decades ago in partnership with all the stakeholders and is poised to take on this challenging journey of making the Indian utilities smart and sustainable. We aim to gather cross-section of knowledge from stakeholders under a single umbrella and channelize all the efforts in the direction of building a sustainable and inclusive future that is beneficial for all.

The 9th Edition of Metering India Seminar is Being Organized for Participants from

 Utilities	 Building Sector	 Energy Service Companies	 Industrial Sector
 Electricity Tariff Regulators Debate	 Solar & Wind Farm Equipment Manufacturers	 Testing Institutes	 Captive Power Generators
 Utility Service Providers	 Power Traders	 Consultants	 AMI Solution Providers & System Integrators
 Academic and Research Institutes	 Manufacturers of Energy Meters	 Telecom Service Providers	 Electricity Tariff Regulators

Papers Will be Presented in the Following Areas

1. AMI - empowering stakeholders
2. Empowering consumers - through digitization & IOT
3. Convergence of energies - renewable integration
4. Metering applications beyond utility
5. Data analytics & management - expected outcome
6. Learning from Smart Grid implementation - Indian journey so far
7. Roll outs and road blocks
8. Communication, infrastructure and technology
9. Smart Grid - utility perspective
10. Making utilities sustainable (Through technological, financial, social, environmental and managerial aspects)
11. AMI and Cybersecurity
12. Regulation / standards challenges and way forward
13. RDSS and way forward
14. Smart Metering Journey towards Net Zero
15. Business model for AMI implementation

Technical papers have been submitted from Public and Private Utilities, CPSUs, Meter Industry, Consultants, Academia etc.

Call for Delegates:

Metering India 2022 will give an excellent opportunity to participants from various stakeholder groups in the metering value chain to enhance their technological expertise. The seminar will also provide detailed insights on various key system components and their latest technological trends, keeping in mind an end-to-end solutions scenario in the expected smart world. The challenges being faced by different stake holders will be discussed at length to enrich the experience of all the participants, and enhance their knowledge with a real world approach.

Delegate Registration:

The two-day seminar will start with registration at 8:30 am on **Thursday, 3rd November 2022**. Inaugural sessions will commence at 10:00 A.M.

Registration fee for the delegates as per their organization / country is as follows:

Participants	Delegate Fee*
Participants from Utilities, Regulators, Educational, Testing, R&D and other Institutions	INR 7500/- Per Delegate
Participants from IEEMA Member Companies	INR 12000/- Per Delegate
Participants from Industry, IT Companies and other organizations not specified	INR 15000/- Per Delegate
Participants from Overseas	USD \$ 300/- Per Delegate

*GST of 18% will be applicable on the delegate fee.

Registration fee includes Delegate Kit, Lunch, Tea/Coffee on both the days and the Dinner on the first day. Delegates are advised to make their own travel and stay arrangements.

Delegate may register online on website <http://meteringindia.ieema.org> However, the registration will be activated after receipt of payment. The online payment facility is available on website.

Glimpse of Metering India

Last Edition

Organiser

METERING INDIA Seminars are organized by IEEMA, the representative national organization of manufacturers of electrical, professional electronics and allied equipment in India. IEEMA undertakes various activities for the benefit of the electrical industry and its users, major ones being dissemination of information such as production statistics, government policy changes; representing the industry's views to the government; evolving price variation clauses covering a wide range of products and evolving of industry standards; training, etc. IEEMA has started new activities like International Cooperation, Export Promotion, Energy Conservation, Quality and promotion of "Made in India" brand etc., to further help members improve business globally. IEEMA also works with the Ministry of Power, Government of India on Power Development and Reforms Programmes. IEEMA publishes a popular monthly journal, IEEMA Journal, which is devoted to techno-commercial aspects of the industry and utilities. IEEMA provides a forum for discussion on technical and commercial matters. IEEMA also organizes ELECRAMA Exhibitions, the largest exhibition of electrical, industrial electronics and allied products in the world.
